

PROCUREMENT
LEADERS

Sustainable Procurement Leaders 2019

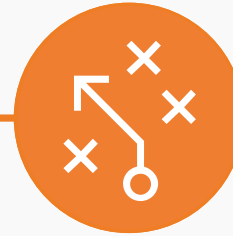

What is Sustainable Procurement Leaders?

01

A community of Procurement Leaders members dedicated to helping organisations deliver sustainable procurement

02

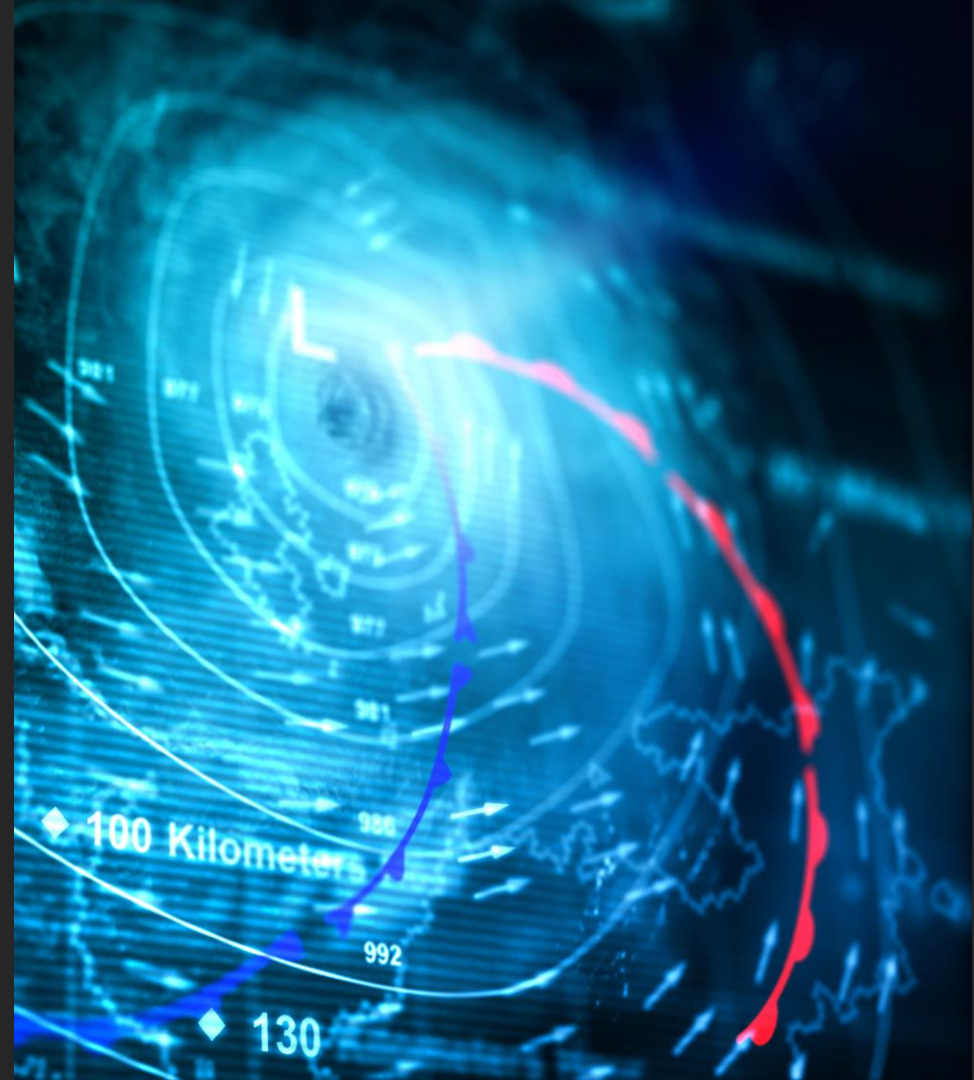

...an annual programme with content and resource streams focused on improving the ability to deliver sustainable procurement

03

...driven by connections through dedicated events, networking opportunities, collaborative projects and digital platforms

Mission 2019

1. To address the issue of sustainable procurement through engaging around insights, applications and driving connections in the procurement community
2. To provide opportunities for our members to help each other develop sustainable procurement practices
3. To deliver unrivalled live and digital networking opportunities for members from different regions, cultures, industries and backgrounds looking to connect with peers on sustainability topics.

How members can get the most from SPL

As an individual member

- Sign up to become an SPL member, or nominate others in your team (form available through microsite [here](#) [link forthcoming])
- Read the calendar and watch for email updates to see the latest content and opportunities to sign up for networking activities, e.g. virtual roundtables
- Come to one of our Congresses [London, Miami, Singapore] and take advantage of the SPL-focused sessions (invites sent by email)
- Use our digital forum to share challenges and connect to other members (link [here](#))
- Share your quarterly SPL updates with your team (members receive these by email)

As part of an enhanced membership

- Join the steering committee (max 3 individuals from each organisation) and contribute to the direction and development of this group, as well as getting priority access to networking activities. Open at the start of each quarter.
-

Member FAQs

Who is eligible?

- Any Procurement Leaders member. We don't restrict nominations, nor vet nominees. The only qualifying factor is an interest in and enthusiasm to contribute to the community's mission.

What does the steering committee do?

- The steering committee helps guide the topics we focus on, provide feedback on activity and are asked to be champions for the discussion in the community.

How much time will this take?

- This is completely up to you. You might choose to have some months with minimum activity and others where you engage with content, connect with peers and attend events — you use it as much as it's useful or interesting to you.

How will I be contacted?

- We will send quarterly email updates. If there are any projects or activities you are involved in, we will contact you on a more specific basis in accordance with those activities.

What value will I get?

- You will have access to targeted content to provide insight, opportunities to network with peers and raise your profile and access to a network to share experiences and help problem-solve.
-
